

Secure SIP Technology Provider M5T Celebrates 5th Anniversary

Premier Solutions Provider Marks Milestone for themselves and the Telecommunications Industry.

Sherbrooke, Quebec, Canada, July 10, 2007 - M5T, the leading provider of software solutions for secure real-time multimedia communications over IP, today announced its 5th Anniversary of providing secure SIP-based solutions and applications.

Originally founded as a specialized spin-off company to its sister division Mediatrix Telecom, M5T has evolved into a premier player at the forefront of secure SIP technology, applications and professional services, and today works with many of the world's most successful developers and providers in telecommunications.

Over the last 5 years, M5T has experienced exceptional year-over-year growth along with the industry, and was named as one of the 100 communications companies to watch in 2007 by Pulver Media. The company has also earned numerous accolades from Communications Solutions magazine and INTERNET Telephony magazine for its technology.

Widely regarded as one of the true pioneers of secure SIP-Based solutions and applications, Samuel Gu enette, the General Manager for M5T, is excited to celebrate this important company and industry milestone. "Five years ago when we started M5T everyone was very uncertain as to the future of SIP and SIP-based technology. The nay-sayers didn't see a market and couldn't understand the opportunities, but today, no one doubts the necessity for security and that SIP-based technologies is the key to delivering security in communications; no one doubts the size and growth opportunity of this market," continued Gu enette.

About M5T
