

Éowyn: Independent Perseverance

Éowyn, an independent artist based out of Nashville, TN, is releasing her new album "Silent Screams" in April but it is already creating a dominant stance in the Christian rock market today. Her first release to radio is the title track, Silent Screams, featuring Rob Beckley from Pillar, which debuted this week on the Radio and Records' Christian rock chart at number 28. It has also made its third appearance on the Most Added list in just three weeks since its release to radio, as well as, landing a spot in the Most Increased Plays category twice.

Nashville, TN ([PRWeb](#)) March 29, 2008 -- Éowyn, an independent artist based out of Nashville, TN, is releasing her new album "Silent Screams" in April but

it is already creating a dominant stance in the Christian rock market today. Her first release to radio is the title track, Silent Screams, featuring Rob Beckley from Pillar, which debuted this week on the Radio and Records' Christian rock chart at number 28. It has also made its third appearance on the Most Added list in just three weeks since its release to radio, as well as, landing a spot in the Most Increased Plays category twice.

An independent artist acquiring this type of attention from radio is not unheard of but very rare to say the least. Éowyn has driven past several barriers not often accessible to those without label backing. One of the most obvious separations between independent artists and those on a label is the distribution and placement of physical product. Though many "indies" sell their music through various online avenues, it is increasingly difficult to gain any placement for their

physical albums on a store shelf. Éowyn has also unraveled this obstruction with the help of Wesscott Marketing. Together, Wesscott Marketing and Deep Wade Entertainment have not only placed Éowyn's "Silent Screams" album in private stores and the leading distributors of Christian products, but also it can be found this spring in Lifeway Christian Bookstores throughout the U.S.

Éowyn further distinguishes herself as a unique independent artist with national touring and a list of sponsorships supporting her. Éowyn has shared her music with people from Washington to North Carolina. These national appearances have put her on the stage with some of the biggest names in Christian rock music. This exposure has also given her the opportunity to partner with some different companies along the way. Some of which are C28.com, a Christian clothing company based out of California,

and LiveWires Custom Fit In-Ear Monitors.

Regardless of all the accomplishments of this young lady, Éowyn continues to denounce any accolades for her successes. Instead, Éowyn gives God the credit for any success she has seen through what she defines only as her ministry. She states it this way, "I have literally put all that I own on the line for this ministry; but not for my glory but Christ's, so that others may see Him and experience His amazing love!"
